The Mission of Mennonite Heritage Village is to "To preserve and exhibit, for present and future generations, the experience and the story of the Russian Mennonites and their contributions to Manitoba." Part and parcel of preserving and exhibiting history is education of younger generations whose life experiences are far removed from these stories. A rich understanding of our heritage can strengthen individuals and communities as they process and understand how and why it is that we happen to be here today.

Our Vision Statement says "Mennonite Heritage Village will be the premier international interpretive centre for the Russian Mennonite story." As such, we attract visitors from across North America and around the world. Not only do these visitors experience the story of our Mennonite heritage, many of them also become tourists in Manitoba, enjoying a variety of destinations and services.

***Join us in telling this important story***

Eden Foundation is the financially supportive arm of Eden Health Care Services, whose vision statement is "People of faith actively engaged in sharing Christ's hope and healing wherever mental health needs are found." We believe that mental health recovery is best realized in the context of a caring community, giving consideration to the whole person . . . physical, psychological, emotional and spiritual.

That story is being lived out in the housing services of Penfeld Court and Wilson Courts, the Segue Career Options program and Recovery of Hope in Steinbach as well as other locations in Manitoba.

***Join us in bringing hope and healing.***
